

7th Annual

ALASKA Oil & Gas CONGRESS

Bringing together the people,
the projects and the issues that
will shape Alaska's energy future

Hear from the leaders at the forefront of unlocking Alaska's energy potential and discover where the opportunities exist for your business.

GOVERNOR SEAN PARNELL
Alaska

LT. GOVERNOR MEAD TREADWELL
Alaska

COMMISSIONER DAN SULLIVAN
Department of Natural Resources
Alaska

TONY PALMER
Vice President
Alaska Development
TransCanada Corporation

LARRY PERSILY
Federal Coordinator
Alaska Natural Gas Transportation Projects, D.C.

TOM BARRETT
President
Alyeska Pipeline Service Company

DANIEL R. FAUSKE
President
Alaska Gasline Development Corp.

TARA SWEENEY
Senior VP, External Affairs
Arctic Slope Regional Corporation

COLLEEN STARRING
President and CEO
ENSTAR

FRED CARMICHAEL
Chair and CEO
Aboriginal Pipeline Group

BUD CRIBLEY
State Director
Bureau of Land Management
Alaska State Office, U.S. DOI

JOHN LAGADIN
Founder
Alliance Pipeline

Conference Co-Chairs:

JOHN KINGSTON
Director of News
Platts

DAVE HARBOUR
Publisher
Northern Gas Pipelines

This unique and comprehensive event will help you identify project roadblocks, understand how resource development is being encouraged and give you the critical details you need to capitalize on opportunities in Alaska.

- Get up-to-the minute details on the Alaska pipeline project to the lower 48
- Examine critical information on OCS permitting and offshore exploratory project development
- Realize new opportunities through technology advancements on the North Slope
- Explore options to address declining flow on the Trans Alaska Pipeline System
- Hear dynamic and candid panel discussions on:
 - Oil Production Tax
 - Examining federal and state issues around keeping the Trans Alaska Pipeline full

In-State Energy Supply Summit

This day will provide an opportunity to assess Alaska's immediate energy needs and investigate solutions to prevent a potential supply crisis in gas and power.

You will also discover the business opportunities Alaska presents as it works towards a steady reliable energy supply.

Benefit from in-depth learning seminars on:

- A Examining the Latest Federal and State Environmental Policy Developments and Understanding How They Impact Energy Project Development in Alaska
- B Navigating the Challenging Social Environment: Best Practices for Stakeholder Consultation and Obtaining a Social Licence to Conduct Your Business

Presented by:

Sponsored by:

With Industry Support From:

“With the global price of oil again rising, partially fuelled by political unrest in the Middle East and Africa and by the revival of the global economy, interest in Alaska’s geopolitically safe and large reserves of oil and natural gas is again climbing.”

Lisa Murkowski, U.S. Senator Alaska

A Note from Our Chairs:

Welcome to the 7th Annual Alaska Oil & Gas Congress.

We invite you to join us on September 19-22 in Anchorage where you will have the opportunity to gain insight on unlocking Alaska’s energy potential. Explore the following questions with us: *What must the state and federal governments do to encourage future resource development? What are the strategies for filling the Trans Alaska oil pipeline and threats of declining throughput? How will Alaska’s interior citizens meet their energy requirements? How is the Alaska Pipeline Project to the lower 48 progressing? How are in-state gas line, hydroelectric, LNG, propane and other concepts being coordinated to assure instate energy needs are met? What opportunities does this create? What is the status of offshore permits and what developments are taking place to realize development in Arctic waters?*

This annual event gathers government, industry, Alaska Native and Canadian Aboriginal leaders to discuss issues, deliver project and policy updates and present opportunities. You can expect to get timely updates on the latest regulatory developments, pipeline progress reports, natural gas supply/demand forecasts, and project development on state and federal lands and the OCS.

Attending this critical event will put you in a room with the people, the projects and the issues that will define Alaskan oil and gas resource development for years to come.

You and other key players will become familiar with one another and get the information you need to stay on top of the issues and make business decisions. For more program information visit www.AlaskaOilandGasCongress.com.

Best regards,

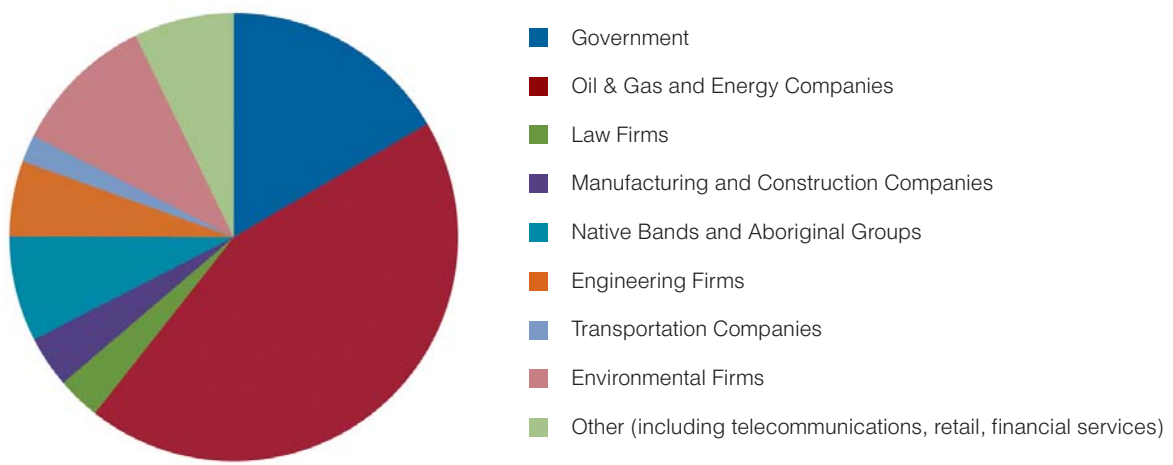

Dave Harbour
Publisher, Northern Gas Pipelines

John Kingston
Director of News, Platts

Who You Will Meet

For the past six years, the Alaska Oil & Gas Congress has brought together industry professionals from across the US, Canada and abroad to learn from the experiences of their peers and get the most up to date information on policy, projects, challenges and opportunities. The Congress is a very unique forum and provides an unparalleled learning experience for delegates and speakers from a wide variety of **industry sectors** including:

Alaska Oil & Gas Congress attendee demographics 2006 to 2010

PRE-REGISTRATION & WELCOME RECEPTION

Monday, September 19 | 5:00pm

Take advantage of this opportunity to sign in early, avoid the morning rush and pick up your conference materials. Join us Monday evening and jump-start your networking with fellow congress peers.

NETWORKING COCKTAIL RECEPTION

Tuesday, September 20 | 5:15pm

At the conclusion of Day 1, we invite you to join government representatives, key speakers, sponsors and industry colleagues in a relaxed social setting. Debate the issues raised during the day’s sessions while enjoying drinks and canapes.

Distinguished Faculty

Co-chairs

Senator Bill Wielechowski
Alaska

Workshop Leaders

Maggie Ahmaogak
Community Relations Coordinator
ASRC Energy Services, Inc.

Wayne Wooster
Principal Consultant, ASRC Energy Services, Inc.

8:00 Coffee and Registration

9:00 Opening Remarks by Conference Co-Chairs

- **John Kingston**
Director of News, Platts
- **Dave Harbour**
Publisher
Northern Gas Pipelines

9:15 Opening Keynote Address

- **Governor Sean Parnell**

9:45 Getting Up-to-Speed on the Status of Permits in Preparation for an Alaska Gas Pipeline and Exploring the Issues That Have Arisen In Pre-filing

- **Tony Palmer**
Vice President, Alaska Development
TransCanada
- Project status
 - How are TransCanada and ExxonMobil working to meet AGIA requirements?
 - Update on environmental reports for FERC
 - How did the summer field study turn out?
 - What issues are unfolding?
 - What are the challenges facing the project at this point in time?
 - Update on stakeholder relations initiatives

10:30 Networking Coffee Break

11:00 Trans-Alaska Pipeline System (TAPS): Examining Ways to Address its Declining Throughput

- **Tom Barrett**
President
Alyeska Pipeline Service Company
- Understanding operating and maintenance challenges for TAPS
 - Exploring possible solutions to extend TAPS useful life
 - Is natural gas to liquids the answer?

11:30 Global Supply/Demand Picture for Oil and Gas

- **John Kingston**
Director of News
Platts
- What does the big picture for supply/demand of natural gas and oil look like?
 - How have weak gas prices impacted the industry?
 - Analysis of Canada's oil sands: Are the oil sands a potential market for Alaska's gas, a threat to Alaska's crude oil market in the California or both?
 - Understanding the major global factors impacting price of both oil and gas
 - LNG: Examining supply in the pacific rim and exploring what Alaska's chance might be to compete on a global scale
 - Examining the impact of the current natural gas glut on Alaska's gas pipeline projects

“It’s the #1 conference I attend.”

**Darcy Friesen, Manager, BD and Special Projects,
Macro Industries Inc.
(Alaska Oil & Gas Congress, September 2010)**

12:15 Networking Luncheon for Delegates and Speakers

1:30 Clarifying the Role of the Office of the Federal Coordinator and Update on an Alaska Gas Pipeline

- **Larry Persily**
Federal Coordinator
Alaska Natural Gas Transportation Projects
Washington, D.C.
- Report on federal agencies' work toward certificate and permits for the Alaska Pipeline Project to serve North American markets
 - Clarifying the role of the Office of the Federal Coordinator (OFC)
 - Would the OFC and other federal assistance be available for an in-state line or an LNG export project?
 - Exploring Alaska gasline politics

2:00 Northern Perspectives on the Mackenzie Gas Pipeline (MGP) and an Alaska Gas Pipeline to the Lower 48

- **Fred Carmichael**
Chairman and CEO
Aboriginal Pipeline Group
- **Tara Sweeney**
Senior VP, External Affairs
Arctic Slope Regional Corporation
- Where does the MGP stand today?
 - History and significance of Aboriginal participation in the Project
 - What is required for this project to move forward?
 - Realizing the significant benefits the MGP can provide to the North and Canada
 - What role does opening up ANWR, the OCS and Alaska's Natural Petroleum Reserve play in the future of an Alaska gas pipeline to the lower 48?
 - How will an Alaska gas pipeline to the lower 48 benefit Alaska's economy?
 - What does opening ANWR, OCS, NPR-A play in our nation's national security?

2:50 Networking Refreshment Break

3:20 Exploring the Implications of an Alaska Stand Alone Gas Pipeline and In-State Natural Gas Supply Options

- **Daniel R. Fauske**
CEO & Executive Director
Alaska Housing Finance Corp. and President
Alaska Gasline Development Corp. (AGDC)
- Critical highlights from the official report to the state by the AGDC including: cost estimates, tariff models and timeline for the in-state gas line
 - Update on negotiations to acquire private sector funding
 - Examining the results of the LNG, NGL and GTL economic reports

3:50 North Slope Exploration and Production: Project Updates and Exploring New Frontiers

- **Kevin Banks**
Director, Division of Oil & Gas
Alaska Dept of Natural Resources
- **Ed Duncan**
President & COO
Great Bear Petroleum
- Examining the role of joint ventures in North Slope development
 - Exploring technology advancements in heavy oil production that improve the economics of development
 - Understanding the geology of the North Slope and what opportunities exist – i.e. shale oil, viscous oil
 - Does the current state tax system incent the development of heavy oil?

Keynote Address

4:40 The Alliance Pipeline Story: Examining How Challenges Were Overcome and How it Compares to the Challenges of Getting an Arctic Pipeline Built

- **John Lagadin**
Founder
Alliance Pipeline
- Conception of Alliance Pipeline – background to why it was built, development of Alliance ownership and technical and commercial innovation
 - Exploring some of the hurdles faced by the Alliance Pipeline and how they were overcome including: competitive, technical, construction, political and financial
 - How do the challenges facing the Mackenzie Valley Gas Pipeline and the Alaska Gas Pipeline seem in comparison?

5:15 Co-Chairs Closing Remarks and Conference Adjourns

Cocktail Reception
5:15 – 7:15 pm

Debate the issues raised during the day’s sessions while enjoying drinks and canapes.

8:00 Coffee is Served

9:00 Opening Remarks by Conference Co-Chairs

Keynote Address

9:15 Arctic Geopolitics and the Current State of Arctic Border Conflicts

 Lt. Governor Mead Treadwell, Alaska

9:40 Investigating the Potential for Offshore Oil & Gas Development in Alaska’s OCS in Wake of the BP Deepwater Horizon Oil Spill

Dr. James Kendall
Acting Alaska Regional Director
U.S. Bureau of Ocean and Energy Management,
Regulation and Enforcement

- Outlining the new OCS regulations issued by BOEMRE (Bureau of Ocean and Energy Management, Regulation and Enforcement) to go forward with exploration
- Analysis of the impact of recommendations for Alaska from the final report of the National Commission on the BP Deepwater Horizon Oil Spill and Offshore Drilling
- Realizing the estimated resource potential in Alaska’s OCS

10:10 Networking Coffee Break

10:40 The Status of OCS Permitting and Offshore Exploratory Project Development

 **Matthew Cohen**
Partner
Stoel Rives LLP, WA

- Critical developments in offshore permitting activity
- Examining the regulatory status of current leases
- Permitting obstacles: Identifying the hurdles companies experience trying to move forward with their project after obtaining a lease

11:10 Examining Developments in Spill Prevention and Response for Arctic Waters

 **Drue Pearce**
Senior Policy Advisor
Crowell & Moring LLP

- Critical updates on R & D in spill prevention and response particularly in Arctic waters and ice conditions
- What are some of the specific challenges that have come from dealing with responses to MACONDO?

“Excellent networking opportunities and presentations on Alaska’s business environment is what I liked best.”

Nigel Singh, Analyst, ExxonMobil
(Alaska Oil & Gas Congress, September 2010)

11:40 Keynote Address

 **Commissioner Dan Sullivan**
Department of Natural Resources
Alaska

12:00 Networking Luncheon for Delegates and Speakers

1:30 The BLM on the Future of Onshore Leasing and the U.S. Federal Wild Lands Initiative

 **Bud Cribley**
State Director, Bureau of Land Management
Alaska State Office
U.S. Department of the Interior

- Determining the potential impact of the U.S. federal ‘wild lands initiative’ on Alaska resource development
 - Will the policy impact an Alaska gas pipeline?

- Outlining areas that will be impacted by this initiative
- How is Alaska implementing this policy?
- Exploring what the future of onshore leasing looks like for the state in the near and medium term

2:10 Exploring the National Ocean Policy and What it Means for Alaska

 **Jack Belcher**
Managing Director
National Policy Oceans Policy Coalition and Partner
Energy North America

- Identifying potential impacts of the National Ocean Policy and specifically coastal and marine spatial planning to the future of offshore Arctic oil and gas development and other economic activities in the state
- How will the National Ocean Policy impact the development of oil and gas infrastructure?
- Examining what Alaska can do to prevent this policy from damaging future oil and gas resource development

2:40 Networking Refreshment Break

3:10 Panel: Oil Production Tax: Should There Be Reform?

Moderator
Bryan Butcher
Commissioner, Department of Revenue, Alaska (invited)

 **Dan E. Dickinson, CPA**

 **Senator Hollis French**
Alaska

- Should the Alaska’s oil and gas production tax be changed?
- Would the Governor’s proposed changes (passed by the House in the 2010 regular session) lead to the hoped for outcomes?
- Examining why those changes didn’t pass the Senate in the recent legislative session
- What might change the outcome for the Governor’s or similar proposals in the 2012 legislative session?

“Way beyond what I expected with respect to the information provided...not only were the sessions insightful but I was able to bounce questions off of and get input from my fellow participants.”

Jeff Clark, Manager, EVRAZ
(Alaska Oil & Gas Congress, September 2010)

4:00 Panel: Keeping the Trans-Alaska Pipeline Full: State and Federal Issues

Moderator:
Mike Bradner
Publisher, Alaska Legislative Digest
Former Speaker, Alaska House of Representatives

 **Tim Bradner**
Natural Resources Writer
Alaska Journal of Commerce

 **Roger Marks**
Petroleum Economist (Independent Consultant),
Anchorage, Alaska

 **Senator Bill Wielechowski**
Alaska

 **Rep. Charisse Millett**
Alaska State Legislature

4:45 Co-Chairs Closing Remarks and Conference Adjourns

“The draw of executive level leadership is what I liked best about the event.”

Jon La Prise, Director, BD, North Slope Telecom, Inc.
(Alaska Oil & Gas Congress, September 2010)

Alaska In-State Energy Supply Summit

Thursday, September 22, 2011

8:00

Registration Opens and Coffee is Served

9:00

Opening Remarks from Summit Chair

9:15

Addressing Southcentral Alaska’s Natural Gas Supply and Storage Requirements

Moderator

Rebecca Logan

GM, Alaska Industry Support Alliance and Chair, Railbelt Utility Task Force

Colleen Starring

President and CEO, ENSTAR

Danny Davis

President, Escopeta Oil

Dave Haugen

Project Manager, Alaska Gasline Development Corp.

- How will an in-state gas line help?
- Why is there resurgence in the Cook Inlet?
- What is the status of current activity?
- Addressing Cook Inlet’s immediate need for energy
- Alaska’s first natural gas storage project: What will this mean for Alaska? What new opportunities does it present?
- Exploring the mining industry’s current and future needs

10:30

Networking Coffee Break

10:50

Railbelt Energy Plan: Exploring Options to Keep the Lights On

Moderator

James Strandberg

Project Manager, Alaska Energy Authority

Rebecca Logan

GM, Alaska Industry Support Alliance and Chair Railbelt Utility Task Force

Jim Posey

GM, Municipal Power and Light

Joe Griffith

GM, Matanuska Electric Association

- Progress report on how utilities are working together to find a solution
- How will an in-state gas line help?
- Why is there resurgence in the Cook Inlet?
- What is the status of current activity?

12:00

Networking Luncheon for Delegates and Speakers

1:15

Exploring Alternative and Renewable Energy Solutions for Alaska

Suzanne Gibson

Sr. Director Energy Development, Cook Inlet Regional Inc.

Chris Rose

Executive Director, Renewable Energy Alaska Project

Bryan Carey

Project Manager, Alaska Energy Authority

- Critical details on Alaska’s landmark renewable energy legislation
 - How does it incent new development?
 - What results does it expect to achieve?
- Update on CIRI’s in-situ coal project and Fire Island wind project
- Progress report on the Susitna hydro project
- What is the status of renewable energy projects in the state?

2:15

Exploring Issues and Solutions Around Non-Integrated Areas/Remote Areas

Mary Ann Pease

MAP Consulting

Meera Kohler

President & CEO, Alaska Village Electric Cooperative Association

- Realizing the advantages of local generation for remote and rural locations
- Identifying which alternate energy solutions can best meet local demand
- Propane: a long-term solution for rural Alaska once a pipeline is built

3:00

Chair’s Closing Remarks and Seminar Concludes

Summit Faculty

Hotel Information:

Venue: Anchorage Marriott Downtown

Address: 820W, 7th Ave, Anchorage, Alaska

Telephone: 1-800-228-9290

Website: www.marriott.com/ancdt

Special Room Rate
for Congress Delegates!

Hotel Reservations:

A limited number of rooms have been set aside until **August 28, 2011** at a special rate for conference registrants at the Anchorage Marriott Downtown. Rates start at **\$155 USD** per night. For reservations, call 1-800-228-9290 and **mention the Alaska Oil & Gas Congress**. Or register online at www.marriott.com/ancdt and enter your online **group code “AOCAOCA”** in the “Group Code” box.

Administrative Details:

PROGRAM MATERIALS

Conference participants will receive a comprehensive set of conference materials prepared by the speakers, as an excellent reference source after the conference. If you have paid and are unable to attend, the conference materials will be shipped to you upon request only. Request must be received within 30 days upon conclusion of the conference.

PAYMENT POLICY

Payment must be received in full by the conference date to ensure admittance. All discounts will be applied to the Conference Only fee (excluding add-ons), cannot be combined with any other offer, and must be paid in full at time of order. Group discounts available to individuals employed by the same organization. **Groups of 4 will be invoiced individually at 25% off the available rate at the time of registration.** For groups of 5 or more please call 1-877-927-7936 for additional discounts.

CANCELLATION AND REFUND POLICY

You must notify us by email at least 48 hrs in advance if you wish to send a substitute participant. Delegates may not “share” a pass between multiple attendees without prior authorization. If you are unable to find a substitute, please notify **The Canadian Institute (CI)** in writing no later than 10 days prior to the conference date and a credit voucher will be issued to you for the full amount paid. Credit Vouchers are valid for 1 year and are redeemable against any other conference by **CI**. If you prefer, you may request a refund of fees paid less a 25% service charge. No credits or refunds will be given for cancellations received after 10 days prior to the conference date. **CI** reserves the right to cancel any conference it deems necessary and will, in such event, make a full refund of any registration fee, but will not be responsible for airfare, hotel or other costs incurred by registrants. No liability is assumed by **CI** for changes in program date, content, speakers or venue.

Morning Seminar 9:00 am – 12:30 pm (Registration opens at 8:30 am)

Examining the Latest Federal and State Environmental Policy Developments and Understanding How They Impact Energy Project Development in Alaska

Seminar leader:
Wayne Wooster
Principal Consultant, ASRC Energy Services, Inc.

If you are planning or thinking about developing an energy project in Alaska – this session will get-up-to speed on the latest developments that could impact your project. The seminar will focus on federal policy & planning activity, and permit decisions in Alaska, both onshore and offshore. As well, it will examine whether the federal policy, planning, and permit decisions pose a real or perceived threat to your project. The seminar will also explore actions being taken by the state of Alaska in response of the increased federal activity. You can expect to cover the following:

- BOEMRE OCS Lease Sale program cancellation and oil & gas exploration moratorium
- USEPA Environmental Appeals Board denial of Shell OCS air permits
- USACE bridge permit denial in the National Petroleum Reserve – Alaska (NPR-A)
- BLM's Integrated Activity Plan and Environmental Impact Statement (IAP/EIS) in the NPR-A
- Arctic National Wildlife Refuge (ANWR) continued lockup & USFWS revised comprehensive conservation plan
- The Endangered Species Act, environmental NGO's activity, and the agency resources drain
- Exploring the impact of ESA and Critical Habitat Designations
- Congressional and EPA Climate Change
- The Council on Environmental Quality (CEQ) Initiatives: NEPA guidance & procedures, and Ocean Policy
- NEPA and the Federal Natural Resource Agencies Implementation on Projects
- The state of Alaska on capital projects and “fighting the feds”

Afternoon Seminar

1:30 – 5:00 pm (Registration opens at 1:00 pm)

Navigating the Challenging Social Environment: Best Practices for Stakeholder Consultation and Obtaining a Social Licence to Conduct Your Business

Seminar Leader:
Maggie Ahmaogak
Community Relations Coordinator, ASRC Energy Services, Inc.

Gaining social acceptability for on and offshore energy development by the communities in which you are looking to operate is not only helpful but it is a necessary key to the success of your project. This session will explore topics such as:

- The importance of obtaining a social licence from local communities and ways to achieve this
- Best practices for consultation
- Criteria required under various regulations with respect to community consultation
- Examining guidelines for a successful outreach program

ASRC Energy Services, Regulatory & Technical Services (AES-RTS) is located in Anchorage, Alaska. AES is a wholly-owned subsidiary of the Arctic Slope Regional Corporation, the largest Native Regional Corporation in Alaska. AES is one of Alaska's largest private-sector employers and the largest oilfield services employer in Alaska with nearly 4,000 employees. AES-RTS provides support to development projects early in their life cycle that are subject to increasing federal regulation, permit delay, and policy decisions.

Wayne Wooster has more than 22 years of environmental experience in the private sector, government, and consulting in Alaska and the Pacific Northwest. Wayne's experience has focused almost exclusively on natural resource or energy sector activities as a permit writer, inspector, environmental engineer, environmental & regulatory affairs manager, or environmental consultant.

Sponsored by:

Doyon Emerald is an engineering and consulting firm with specialized services in the fields of program management, project management, process engineering, process safety, risk management, operational management, HSSE management, industrial multimedia regulatory compliance and information technology/telecommunications. For more information or a free consultation call 907.258.8137 or visit www.doyonemerald.com.

ICF International (NASDAQ: ICFI), a global professional services firm, partners with commercial and government clients to deliver consulting services and technology solutions in energy, climate change, environment, transportation, social programs, health, defense, and emergency management. www.icfi.com

Industry Partners:

A nonprofit trade association, the Alaska Support Industry Alliance is made up of nearly 500 businesses, organizations and individuals that provide products and services to the oil, gas and mining industries, and represent approximately 35,000 Alaskan workers. The goal of the Alliance is to promote responsible exploration, development and production of oil, gas and mineral resources for the benefit of all Alaskans. www.alaskaalliance.com.

Northern Gas Pipelines is your one-stop-shop to information about Arctic Gas transportation projects: www.arcticgaspipeline.com

The Alaska State Chamber is a non-profit 501 C 6, business advocacy organization working to promote a positive business environment in Alaska. Whether addressing policy-making in the legislature or rule-making at state agencies, you can be confident the Alaska State Chamber of Commerce is looking out for your interests every day. www.alaskachamber.com

The Alaska Process Industry Careers Consortium (APICC) has been an integral player in workforce development for the Process Industries and contractor companies in Alaska since 1998. APICC is a non-profit consortium serving constituents in the Oil, Gas, Mining, Power Generation, Water Treatment, other natural resource, process industries, and contractor companies in Alaska. www.apicc.org

From political corruption to climate change to rural Alaska to the rise of Sarah Palin, Alaska media has struggled to cover stories of importance not only to Alaskans but to the rest of the nation. Alaska Dispatch, Alaska's online-only news site, is devoted to filling this journalism void. Whether reporting on powerful oil companies or on residents who live far from the urban centers where decisions are made, Alaska Dispatch's goal is to take an unflinching look at the state, from its massive riches to its abject poverty, and tell these stories to Alaskans and to the world. www.alaskadispatch.com

The Daily e-mail bulletin which presents you with up to the minute vital facts and developments within the global upstream industry. Our expert analysis will enable you to make sound business decisions and alert you to business opportunities worldwide. E&P Daily delivers news you can use - immediately. For a free trial to E&P Daily email your request to subs@ogilviepub.com or register online at: www.ogilviepub.com or call +44 (0) 191 567 8497.

Petroleum News is a weekly oil and gas newspaper based in Anchorage, Alaska. Our editorial objective is to provide timely and trustworthy news coverage of upstream development in Alaska and Northern Canada, including news from around the world as it impacts the arctic oil and gas industry. For more information call (907) 522-9469 or visit www.petroleumnews.com.

Argus Media is a leading provider of price assessments, business intelligence and market data on the global coal, electricity, oil, gas, emissions and transportation industries. It is headquartered in London, and has offices in Houston, Washington, Jersey City, Moscow Singapore, Tokyo and Beijing. www.argusmedia.com

UPSTREAM, the international oil & gas newspaper, is a weekly publication read by over 40,000 industry executives in over 100 countries worldwide. The newspaper is complemented by the website www.upstreamonline.com, providing 24-hour news five days a week and includes a searchable archive of all published stories as well as containing key industry statistics.

Alaska Resource Education in partnership with the Alaska Department of Education and industry provides Alaska's students with the knowledge to make informed decisions relating to mineral, energy and forest resource by providing educators with objective scientific classroom curricula on Alaska's natural resources allowing teachers to reach hundreds of students a year. The students of today are our future policymakers, scientists, and leaders influencing Alaska's role in our state and world economy while setting the pace for responsible resource development and environmental accountability. www.akresource.org

Founded in 1992, Alaska Newspapers Inc. is a subsidiary of Calista Corp., one of the largest Alaska Native corporations in the state. ANI publishes six weekly community newspapers, a statewide shopper, a statewide magazine and slate of special publications that supplement our products year-round. www.alaskanewspapers.com

Worldoils is a company that combines the power of marketing as well as the in-house expertise for the Oil, Gas, Offshore and the Maritime industries. Worldoils' web portal www.worldoils.com has become a truly central platform for visitors who need information regarding oil and gas products and services, research, training, conferences, news and events as well as a popular advertising base for providers of Oil, Gas, Marine and Offshore services. Worldoils has also launched the jobs system and a marketplace. In the recent months, Worldoils has strengthened its position as a fast developing central place for buying and selling of land rigs, offshore rigs, barge rigs and other oilfield and subsea equipment.

SPONSORSHIP & EXHIBITION OPPORTUNITIES

CI Energy Group works closely with sponsors to create the perfect business development solution catered exclusively to the needs of each client. For more information on how to maximize your organization's visibility in front of key decision makers in the Alaskan oil and gas core and subsidiary markets, please contact: Patrick Savoy at 1-877-927-0718 ext. 7313 or by email at p.savoy@CanadianInstitute.com

Bringing together the people, the projects and the issues that will shape Alaska’s energy future
